PROFESSIONAL SUMMARY

Data Analyst with hands-on experience working with real-world financial and client data, combined with practical expertise in SQL, Microsoft Excel, Power BI, Python, data cleaning, exploratory data analysis, statistics, and data visualization. Experienced in transforming raw data into structured reports, dashboards, KPIs, and actionable business insights. Strong foundation in analytical problem-solving, business reporting, and end-to-end data workflows.

TECHNICAL SKILLS

Data Analysis: Data Cleaning, EDA, KPI Analysis, Trend Analysis, Data Validation

SQL: Joins, GROUP BY, Subqueries, CTEs, Window Functions, Filtering

Excel: Power Query, Pivot Tables, XLOOKUP, VLOOKUP, HLOOKUP, Conditional Formatting, KPI Dashboards

Power BI: Data Modeling, Power Query, DAX, Calculated Columns, KPI Dashboards, Interactive Reports

Python: Pandas, NumPy, Matplotlib, Plotly, Data Cleaning, EDA, Statistical Analysis

Statistics: Probability, Hypothesis Testing, A/B Testing, Correlation, Outlier Analysis

Visualization: Power BI, Excel Dashboards, Matplotlib, Plotly, Data Storytelling

Tools: PostgreSQL, MySQL, Jupyter Notebook, Anaconda, Git/GitHub, VS Code

EXPERIENCE

Operations Assistant | Wealth Creator

Prayagraj, India | Jun 2025 – Present

- Manage and maintain client investment records and financial data using structured Excel-based workflows.
- Perform data entry, validation, cleaning, and record maintenance to support day-to-day mutual fund operations.
- Use Advanced Excel to organize, reconcile, filter, and analyze operational data.
- Support KYC creation, account opening/closure, AMC documentation, and data processing while maintaining accuracy of client records.

PROJECTS

Excel Sales & Business Dashboard

Excel | Power Query | Pivot Tables | XLOOKUP | KPI Dashboard

- Cleaned and transformed raw sales data using Power Query for analysis-ready reporting.
- Built interactive Pivot Table-based dashboards to track sales, revenue, product and regional performance.
- Used lookup functions and calculated metrics to create structured business KPIs.

Track My Job - Personal Job Application Tracker

HTML | CSS | JavaScript | Supabase | GitHub | Claude Code + ChatGPT + Perplexity

- Identified my own job-search problem and designed a personal tracker to manage applications, 194 companies/job sites, and the complete job-search workflow.
- Planned the product, UI, features, functions, and research-based interview question bank, with continuous updates based on real use.
- Used Claude Code and ChatGPT for coding implementation while personally reviewing, testing, and improving each feature.
- Built it as a practical personal tool to organize the job search, track progress, and keep preparation resources in one place.

3 . SQL Customer & Sales Analysis

PostgreSQL | Joins | CTEs | Subqueries | Window Functions

- Analyzed customer and transaction data using complex SQL queries to identify business patterns.
- Applied JOINS, aggregations, CTEs, subqueries, CASE statements, and window functions.
- Developed customer segmentation and performance metrics based on transaction behavior.

EDUCATION

Bachelor of Arts – Grade A

University of Allahabad | 2022 – 2025 | Ancient History • Political Science • Hindi Literature

Data Analysis – Self-Taught

SQL • Excel • Power BI • Python • Statistics • Data Analysis

CERTIFICATE

SQL Mastery – Skill Course

Instructor: Satish Dhawale | Completed: 2026

Advance Excel – Skill Course

Instructor: Satish Dhawale | Completed: 2026

LANGUAGE

Hindi — Native

English — Basic / Medium
